Nanushuk MOU between Corps and EPA.pdf

Hi Sheila-

This is a recent MOU between EPA and the Corps that can be used as a starting point. I can't say whether this addresses all of our concerns. For example, the attached schedule is for a very different project and therefore review times may not be applicable. However, many of the provisions could be used to establish an MOU for the Pebble EIS.

Ex. 5 - Deliberative Process

Have a good weekend.

Patty

Got it. Thanks Patty. Would you mind sending me an MOU that you feel addresses all of your concerns? It can be a previous one. I would like to consider inclusion of information and discuss with counsel prior to next week so we can have a robust discussion with the group.

Vr

Sheila

Hi Sheila-

Attached are our comments on the draft cooperating agency workplan.

We look forward to discussing next week.

In the meantime feel free to call if you have questions.

Patty
